I am an Information Systems undergraduate seeking a Data Analyst internship, with hands-on experience in data analysis, data cleaning, and dashboard development using Power BI. Through internships as a Data Analyst, Web Developer, and Technical Writer, I have developed strong skills in exploratory data analysis, structured database design, and project coordination. My leadership and communication abilities complement my technical expertise. I am motivated to continuously grow and contribute positively in a data-driven environment.

KEY SKILLS & COMPETENCIES

Skillset - Data Analysis, Data Visualization, Analytical & Problem solving, UI/UX Design

Toolset – Python, SQL, Power BI, Microsoft Excel, HTML / CSS / JavaScript / Bootstrap, Figma

EDUCATION

Ary Ginanjar University | *Bachelor of Information Systems*

2023 - Present

- **GPA : 3.87 / 4.00**
- **Achievement**
 - **Full Scholarship Awardee** – received from **Gowa Regency Government** under the Beasiswa Putra Putri Terbaik Indonesia Emas 2045 program
 - **Led BEM Website Redesign project**, applying data-driven insights to improve user experience
 - **Awarded University-Level Outstanding Student**
 - Developed interactive dashboards using **Power BI** for academic projects
 - Completed **Python Web Scraping** and **Data Visualization** project

PROJECT EXPERIENCE

FIFA Women's World Cup Data Dashboard

December 2025 – January 2026

- Performed **data cleaning, transformation, and validation** on FIFA Women's World Cup dataset using **Python and Pandas** to ensure accuracy and reliability.
- Developed **interactive dashboards** in **Power BI** to visualize key match statistics, team performance, and goal trends.
- Analyzed **trends in team performance, scoring patterns, and tournament statistics** to derive actionable insights.
- Received **award from lecturer** for best **data visualization**.
- Presented insights effectively to peers and faculty, highlighting **top-performing teams and performance patterns**.

Python ODBC – Car Sales Analysis (Kaggle Project)

November – December 2025

- Connected to car sales database using **ODBC** and extracted raw sales data directly into **Python** for analysis.
- Performed **data cleaning, transformation, and exploratory data analysis (EDA)** using **Python and Pandas**.
- Applied **aggregations and calculations** to identify top-selling car models and regional sales trends.
- Created **visualizations** with **Matplotlib and Excel** to communicate insights clearly.
- Delivered **actionable data-driven insights** to support decision-making.

Sentiment Analysis – LinkAja (Mini Project / Early Experience)

October - November 2025

- Collected user feedback and performed **sentiment analysis** using **Python and Pandas** to determine positive, neutral, and negative opinions.
- Identified **key strengths and weaknesses** of the service based on data-driven insights.
- Generated **actionable recommendations** for product improvements and user experience enhancements.
- Presented findings to team to support **data-driven design decisions** in the UI/UX development process.

Python Web Scraping & Data Visualization (Wikipedia Data)

April - June 2025

- Scraped population data from Wikipedia using **Python** to collect raw datasets.

- Performed **data cleaning, validation, and outlier detection** with **Pandas** to ensure accuracy and consistency.
- Created multiple **data visualizations** using **Matplotlib and Excel** to highlight regions with highest and lowest populations.
- Automated the **data workflow** to streamline analysis and reporting.

Food Supply Analysis – Eastern Indonesia (Sulawesi & Papua)

April - May 2025

- Collected and analyzed **food supply data** for Eastern Indonesia regions using **Python, Pandas, and Excel**.
- Performed **time series analysis** to identify trends and contribution patterns across regions.
- Created **data visualizations** using **Matplotlib and Excel** to highlight supply distribution and key trends.
- Generated **actionable insights** to support planning, logistics, and resource allocation decisions.

ORGANIZATIONAL EXPERIENCE

Coordinator Amgala Squad Bogor | Amgala Foundation

September 2024 – February 2026

- Coordinated HR divisions across Jabodetabek and Bogor regions to ensure smooth operations.
- Previously managed the foundation's website, maintaining content and functionality.
- Developed leadership, team coordination, and project management skills.

Head of IT Bureau | BEM Ary Ginanjar University

Maret 2025 – January 2026

- Led a team to design and maintain the official BEM website, making it fully accessible to students.
- Ensured a responsive and user-friendly interface, coordinating content and design implementation.
- Strengthened leadership, project management, and technical skills.

PKM-PM Grant Recipient | Kemdiktisaintek

July 2025 – November 2025

- Secured funding to implement a community service program.
- Coordinated project activities and monitored program impact.
- Gained experience in project planning, reporting, and stakeholder communication.

Teaching Assistant | SMK Media Informatika

November 2025

- Assisted in teaching UI/UX design and Data Visualization.
- Supported students with hands-on practical projects.
- Developed mentoring, communication, and instructional skills.

LinkAja Hackathon| Participant

November 2025

- Developed innovative solutions and performed sentiment analysis on user feedback using Python.
- Identified key strengths and weaknesses to support UI/UX improvements.

Samsung Solve Tomorrow 2025 | Participant

June 2025 – July 2025

- Created an AI-based solution to enhance critical thinking and problem-solving skills.
- Collaborated with a team to develop innovative ideas for real-world challenges.
- Strengthened problem-solving, creativity, and teamwork.

Digital Engagement Tetaer Tepi Waktu| Member

March 2025 – May 2025

- Supported digital engagement initiatives, including social media content creation and online promotion.
- Contributed to audience outreach and engagement strategies.

Website Redesign Project | ESQ Mental Health

February 2025 – March 2025

- Assisted in redesigning website for a mental health project.
- Focused on improving user interface and user experience for better accessibility.
